Reality Check

Description: On the internet, it can be hard to tell what's true and what's false—but we have to make a lot of decisions based on how reliable we think things are. In *Reality Check*, you'll learn how to find clues like finding where a story originally came from and comparing it to other sources, as well as how to use tools like fact-checking sites and reverse image searches.

Media Smarts

CANADA'S CENTRE FOR DIGITAL AND MEDIA LITERACY

Top Secret

Description: This interactive narrated tutorial teaches students about the benefits and drawbacks of sharing information online. Students give their opinion about what the characters in the story should do about their privacy dilemmas, from posting photos to buying music online, and they receive feedback on their responses as the story unfolds.
